### **REASONS FOR ALLOWANCE**

The following is an examiner's statement of reasons for allowance:

Applicant's arguments dated August 13, 2008 have been carefully considered. Upon careful reconsideration, the combination of references to McRae 6,923,616 and Chamberlin 2,915,279; Wilson 5,281,097 and Chamberlin 2,915,279; and Lee 6,341,939 and Chamberlin 2,915,279 involve hindsight reasoning to arrive at the claimed invention and do not teach the combination of cooling air channeled from a blade internal cavity through a blade impingement cooling circuit for impingement cooling a first rotor blade platform radially inner surface and a portion of a trailing edge of a first rotor blade platform cooled by cooling air channeled through a recessed portion of the platform (claim 1); a portion of a trailing edge sidewall that is recessed between platform radially outer and radially inner surfaces to facilitate platform trailing edge cooling and a cooling circuit extending through a portion of a shank for supplying cooling air from a dovetail internal cavity for impingement cooling of the platform radially inner surface (claim 11); and a portion of a trailing edge sidewall that is recessed between platform radially outer and inner surfaces to facilitate cooling of a platform trailing edge and an impingement cooling circuit extending through a portion of a dovetail shank for channeling cooling air from a blade cavity for impingement cooling the platform radially inner surface (claim 23).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
